Primary market: Dubai / UAE. Every page should read "in Dubai" / "in the UAE" naturally, since that is the local search intent. Keep NAP (name, address, phone) identical everywhere for local SEO.

1. Recommended site structure (sitemap)

A hub-and-spoke structure: Home links to 9 main service categories; each category page links to its product sub-items. This is clean for users and strong for SEO.

Page	URL slug	Purpose / search intent

Optional later: a Blog/Guides section (e.g. "types of signage in Dubai", "business card finishes") to build informational traffic that links to the money pages.

2. Homepage content (what to put, in order)

The homepage is the brand overview and the main SEO landing page for "printing company in Dubai/UAE". Build these sections top to bottom:

Section 1 — Hero

- **Headline:** Creating Impressions That Last Beyond the Print
- **Sub-line:** Premium printing, signage, branding & corporate gifts across the UAE.
- **Two buttons:** "Get a Quote" and "Explore Services".
- **Background image:** the production-floor photo (page02_img01.jpg).

Section 2 — Trust bar (stats)

4 counters: 4+ Years Experience · 6 Sales Professionals · All 7 Emirates Covered · In-house Production. (Keep these numbers consistent with the About page.)

Section 3 — Our Services (9 cards linking to category pages)

Business Stationery · Marketing & Promotional · Signage · Branding · Stickers & Labels · Packaging · Workwear & Apparel · Corporate Gifts · Large Format. Each card: icon/photo + title + one line + "Read more".

Section 4 — Why Nearprint

- In-house signage production (CNC, laser, UV flatbed) = faster turnaround and quality control.
- One partner for print, signage, branding, packaging and gifts.
- Multilingual sales team; personal service across the UAE.
- 4+ years serving businesses of all sizes.

Section 5 — Brands We've Worked With

Logo strip using the page-17 client logos (Dubai Police, Etisalat, RTA, LuLu, Emirates, Meta, Al-Futtaim, Expo 2020, etc.). Powerful trust signal — put it high on the page.

Section 6 — Call to action + Contact

"Let's create something that lasts." Quote button, phone, WhatsApp, Business Bay address, and the enquiry form or a link to /contact.

3. Service pages — content & product lists

Each service page follows the same template: H1 + intro paragraph (from the profile) + a grid of product items (each ideally its own card with a photo, name and 1-line description) + an FAQ + a quote CTA. Below is the exact content per page, taken from the profile.

6. Technical SEO checklist & sitemap.xml

- One clear H1 per page; logical H2/H3 for each product group.
- Descriptive URLs (as in the sitemap table above); avoid ?id= style links.
- Add LocalBusiness schema (name, address, phone, geo, opening hours) on every page footer; Organization schema on Home; BreadcrumbList on inner pages; Service schema on each service page; FAQPage schema where you add FAQs.
- Robots.txt allows all + points to sitemap. Submit sitemap in Google Search Console.
- Set up Google Business Profile for the Business Bay address; consistent NAP everywhere.
- Fast images (WebP, lazy-load), mobile-first layout, HTTPS, one canonical host (www or non-www, not both).
- Internal links: Home → category pages → product items; every page links back to Contact/Quote.
- Open Graph + Twitter tags per page for nice WhatsApp/social previews.

Starter sitemap.xml (paste, adjust domain):

```
<?xml version="1.0" encoding="UTF-8"?>
<urlset xmlns="http://www.sitemaps.org/schemas/sitemap/0.9">
  <url><loc>https://nearprint.ae/</loc><priority>1.0</priority></url>
  <url><loc>https://nearprint.ae/about</loc></url>
  <url><loc>https://nearprint.ae/business-stationery-printing</loc></url>
  <url><loc>https://nearprint.ae/marketing-promotional-printing</loc></url>
  <url><loc>https://nearprint.ae/signage-dubai</loc></url>

</urlset>
```

7. Target keywords per page

Page	Primary keyword	Secondary keywords
Home	printing company in Dubai	printing press UAE; printing services Dubai; Nearprint
Business Stationery	business card printing Dubai	letterhead printing UAE; company profile printing Dubai
Marketing Printing	flyer printing Dubai	brochure printing UAE; poster printing Dubai; catalog printing
Signage	signage company Dubai	3D sign board Dubai; LED sign board UAE; acrylic signage Dubai
Branding	vehicle branding Dubai	exhibition stand Dubai; large format printing UAE; car branding
Stickers & Labels	sticker printing Dubai	label printing UAE; die-cut stickers Dubai; product labels
Packaging	custom packaging Dubai	printed boxes UAE; paper bags printing Dubai; food boxes
Workwear	uniform printing Dubai	corporate uniforms UAE; safety jackets Dubai; polo printing
Corporate Gifts	corporate gifts Dubai	branded gifts UAE; promotional gifts Dubai; employee gifts

Use "printing", "print", "Dubai", "UAE" naturally; don't repeat the same phrase unnaturally. Each product item name (e.g. "tear drop flag") is itself a long-tail keyword — having them as labelled cards helps you rank for many small searches.
